

## Sakshi Adhav

Mumbai, India

+91 9876543210 | [sakshi.adhav@example.com](mailto:sakshi.adhav@example.com) | [linkedin.com/in/sakshiadhav](https://linkedin.com/in/sakshiadhav)

## SKILLS

- **Programming Languages:** Python, SQL, Bash, C++
- **Data Analysis & Machine Learning:** Pandas, NumPy, Scikit-learn, TensorFlow
- **Web Development:** Flask, Django, REST APIs
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Version Control & Tools:** Git, Docker, Linux, JIRA
- **Soft Skills:** Problem-Solving, Communication, Team Collaboration

## EDUCATION

### Indian Institute of Technology, Bombay

Bachelor of Technology in Computer Science | 2019 – 2023

CGPA: 8.5/10

### ABC Senior Secondary School

Intermediate in Science (PCM) | 2017 – 2019

Percentage: 89%

### Vidyapeeth School

SSC 2016-17

Percentage: 99%

## EXPERIENCE

### *Python Developer*

**InnovateTech Solutions** | Pune, India

*June 2023 – Present*

- Developed and optimized backend services using Flask and Django, improving API response times by 30%.
- Built a machine learning pipeline to process large datasets, enhancing predictive analytics capabilities.
- Integrated RESTful APIs with front-end applications to create seamless user experiences.
- Collaborated with DevOps team to deploy applications using Docker and Kubernetes.

### *Software Engineer Intern*

**TechVision Pvt. Ltd.** | Pune, India

*Jan 2022 – May 2023*

- Assisted in developing an AI-powered chatbot using NLP and Python.
- Designed a data pipeline to automate report generation, reducing manual effort by 50%.
- Conducted unit and integration testing, ensuring 95% test coverage.

## PROJECTS

### *Resume Analyzer | Python, Flask, NLP*

- Built a web application that parses resumes, extracts skills, and matches candidates to job descriptions.
- Used Natural Language Processing (NLP) for keyword extraction and similarity scoring.

### ***Stock Price Predictor | Python, TensorFlow, LSTM***

- Developed an AI model using LSTM networks to predict stock market trends with 85% accuracy.
- Integrated visualization dashboards using Plotly for real-time stock analysis.

### ***E-Commerce Backend System | Django, PostgreSQL, REST API***

- Designed and implemented a scalable backend architecture for an e-commerce platform.
- Created secure authentication and payment integration modules.

## **CERTIFICATIONS & ACHIEVEMENTS**

- Certified Python Developer – Coursera
- Data Science Specialization – IBM
- Hackathon Winner – AI & Data Science Challenge 2022

## **EXTRACURRICULARS**

- Organized coding workshops for university students.
- Active contributor to open-source projects on GitHub.
- Tech blogger covering AI and software development trends.
